Hi Kathy. I trust you had a good holiday.

I wanted to confirm that we will be at Malibu High School on January 3, 2014 beginning at 9:00 a.m. to pick up the air samples and perform the wipe sampling. I think that will be early enough to complete all the work before noon, as you requested.

Please let me know if you have any questions, or require any assistance.

See on January 3rd.

Mark

Subject: MHS sampling next week

Mark –

I will be representing EPA at the sampling event next week. Sandra indicated that you will conduct the sampling from Jan. 2-3. Presumably, that means you will set up the (24 hour) air samplers on Jan 2nd, and then take down the air samples on Jan 3rd and collect the wipe samples then. If that schedule is not accurate, please let me know. I plan to be down there on Jan 3rd – there's no need for me to be there for the air sample set-up on Jan 2nd. If feasible with your schedule, doing the air pick-up and wipe sampling on Friday morning would be better than the afternoon.

I plan to take co-located wipe samples. The EPA samples are not truly split samples since we will be analyzing Aroclors rather than congeners, but are intended to generally confirm the clean-up.

Thank you for your help with this effort –

Kathy Baylor

Subject: 72 hour notice

Hello all:

Thanks for all your assistance this week so that we are able to move forward with cleaning and testing.

My understanding is, based on information that you sent to us, you need 72-hour notice for the verification testing that is to be done post-cleaning so that the EPA can send a representative from Region IX, San Francisco to be on-site.

That testing will be scheduled for January 2nd and 3rd 2014. We wanted to give you ample time to arrange for your representative to be there.

Please let me know if you need anything else.

Happy Holidays!
Sandy
